

Quality Payment Program Impact on Health Centers

Level: Intermediate to Advanced

Track: Finance/ Leadership

Target Audience: Senior Administrators, Financial Professionals, Board Members, Quality Payment Professionals, Data Management Leadership

Description: What is the Quality Payment Program (QPP) and how does it impact health centers? Are you an ACO/MSSP member and lack understanding of how performance impacts future reimbursement? Do you know the difference between MIPS, MVP, and APP reporting? Are you prepared for loss of web interface submission as of 2025? The future of reimbursement is value-based. Just like knowing the basics of Medicare billing for health centers is foundational for optimal third-party payment, understanding the federal quality payment programs and options to track performance, affords the opportunity for future success around value-based care and payment.

Learning Objectives:

1. Understand the difference between MIPS and APMs
2. Know which eQMs impact your health center as an ACO/MSSP member.
3. Learn why QRDA III are pass-through files that are less desirable than QRDA I or CSV.

Duration: 1–1.5 hours

Q&A:

1. ABC
2. DEF
3. GH
4. JK
5. LM
6. KL
7. BN
8. OP
9. Asdf
10. asdf
